San Pedro, Ambergris Caye, Belize, C.A.

Technical Tours **2025**

TOUR OPTION 1: WATER TREATMENT & TOURISM

# Tour Option 1: Water Treatment & Tourism

**Locations:**

- Belize Water Services, San Pedro Reverse Osmosis Plant
- Hol Chan Marine Reserve, San Pedro

**Date:** Friday, October 24, 2025

**Duration:** Full Day (8:00 AM to 2:00 PM)

**Description:** Begin the day with an insightful tour of the Belize Water Services (BWS) San Pedro Reverse Osmosis Plant, where delegates will observe the innovative processes used to ensure clean, potable water. Experts will provide in-depth explanations on the desalination process. Then enjoy a scenic transfer to Hol Chan Marine Reserve, one of Belize's most celebrated protected areas. This part of the tour includes a guided snorkeling experience.

✓ **Recommended for:** Delegates seeking to enhance their knowledge of water and environmental management and eco-tourism.

TOUR OPTION 2: INDUSTRIAL AND PRIVATE WATER TREATMENT

## Tour Option 2: Public and Private Approaches to Water Treatment

**Locations:**

- Belize Water Services Double Run WTP – Mile 17, Sandhill Village, Philip Goldson Highway, Belize
- Bowen & Bowen WTP, Ladyville, Belize

**Date:** Friday, October 24, 2025

**Duration:** Full Day (7:30 AM to 4:30 PM)

**Description:** Explore BWS's Double Run Water Treatment Plant, the heart of potable water production for the Belize District. This facility highlights the full water treatment process from river intake to tap. Delegates will gain firsthand insight into conventional processes such as coagulation, sedimentation, rapid sand filtration, and chlorination. The plant's ability to produce up to 7 million gallons per day highlights BWS's commitment to quality, innovation, and 24/7 operations that ensure continuous and safe water supply. This is an opportunity to witness water treatment excellence in action and connect with the dedicated professionals who deliver water and more. Then explore the operations of Bowen & Bowen, Belize's iconic brewery, with a focus on its advanced wastewater treatment systems and sustainability practices. Get a behind-the-scenes look at how industrial facilities manage water reuse, treatment, and efficiency while upholding environmental standards.

✓ **Recommended for:** Delegates focused on industrial processes, corporate sustainability, and water innovation.

IMPORTANT INFORMATION:

# Important Information:

- Spots are limited
- Registration required on or before **October 1, 2025**.
- Comfortable attire and sun protection are recommended.
- Transportation included for both tours.

Please note that an indemnity form **MUST** be completed for each tour option.
